The Board proceeds to review the accounts of the past official year which are as follows

Balance in hand on the 31st March 1872.	487. 2 2	
Receipts during the year ———	3120. 3 7	
Total —	3607 - 5 9	
Deduct Disbursements during the year	2178- " "	
Balance on the 31st March 1873 ——	1429 - 5 - 9	

Read annual accounts of Expenditure of the past official year prepared in forms A B & and 2, referred to in letter No 50 of 14th May 1871 from the Accountant general North western Provinces, received with the Chief Commissioners Circular Memorandum No 4050

79

of 1872 73 and passed by the Committee.

Read Petition of 22nd Instant from certain inhabitants of Boorgenahully in the Chebuldroog Town, praying that half the Estimated amount Viz 400 Rupees for cutting a channel to that part of the Town for the conveyance of Nuraya water be borne by the Municipality.

Read also, the late offg Deputy Commissioners orders thereon.

The Committee are unanimously of opinion that the prayer of the Petitioners deserves Consideration and that as the Municipality is able to meet the expense it is resolved that the Petition together with Mr Krishna Rows orders thereon, be Sent up along with the proceedings to the Commissioner for his Consideration, and obtaining Chief Commissioners Sanction to the Municipality bearing half the cost of the project Viz 400 Rs

Read another Petition from Dalayet Narasaram and 12 others of Chebuldroog, complaining against the channel for the above project, being cut through the rocks above their houses, on the ground that the water is apt to percolate, and render their houses wet and unsafe.

Resolved that the petitions be referred to the Vice President with a request that he will in Conjunction with 2 or 3 members of the Committee inspect the Spot and Submit

Approved as the Complaint prays &c.—

Inspection Report.

In company with the Medical Officer, Quildar and District Surveyor, I went to see the proposed line of Carriage to the town of Burjaunutty, - enquired into all the complaints made against the work and settled each one as follows.

Syedah - Mukhandar raised an objection to the channel being taken thro: the compound of the Mukhan as apparently the remains of some ancients lie there, the objection seemed groundless and talking his statement for granted it was then proposed to divert the line to the back of the Mukhan & the Mukhandar then said that he would rather that the water run before their having his place, it has therefore been concluded to carry the line as at present marked.

Female Rainy - Objects to the Channel being carried at the back of her Sons house, Poor Persa Ram - it does not appear that water can percolate to such an extent as to cause any damage to the pair house, considering that the channel is to be lined with stone and pounded with Chunam and the out lining only 9 Sq: inches no great body of water could flow thro: it - Admittion her

complaint it was proposed to carry the line about 20 yards higher up. This he said would be more objectionable since her own house then would also come within the scope, so that both herself and her son would suffer thereby. The conclusion arrived at is that the line be diverted so as to leave the house about 3½ yards from the Channel, a privilege more than others in the town where the Caring water is now running.

Sulchini Nursapah. Residing near Vellinga Ammah's temple objected to the Channel being cut, about his house which is built on rock & fearing that water might percolate and cause it to be damp. He apprehends fear where no fear is, for the very fact of the Channel in that particular spot being carried through granite no percolation whatever can take place, so that his objections are unreasonable.

Goothathapah Bangle seller. Objections similar to all the rest were set forth by him. His house lies far down the lane & beyond others which lie nearer to the Channel, this being the case his objection cannot be considered.

Rumbly Doddana and Ramarow.

Read docket No 302 of the 29 September from the Commissioner Nagar Division forwarding copy of letter No $\frac{3365}{100}$ of 20 September 73 from the Secretary to the Chief Commissioner calling for information as to the nature of the water project mentioned and also the claim of the Municipality for assistance.

The nature of the project is to extend the supply of drinking water from the Tiroomul-noiken-Kerry tank to the inhabitants of that part of Chitauldroog called Burjumbully, who at present have no adequate and convenient water-

water supply.

The rest of the town is supplied from this tank and the above people praying the Municipality to extend the channel to them - agreeing to pay Rs 400 themselves ie half of the then estimated amount & they begged the Municipality to pay the other half which was agreed to, subject to sanction. This work may be considered as one of great importance, as there are about 500 houses in that part of the town and the supply of good drinking water to these people at their very doors will naturally be of great sanitary importance.

The work seems desirable & proper but it would have been explained how the original estimate was prepared & whether the people are agreeable to pay the extra expense found necessary & not often understood how the work can be carried out &c

Read letter from the Surveyor submitting a fresh estimate for Rs 298 for cutting the channel through rocks, which have been met in greater abundance than was originally expected.

Considering that the channel runs close to the foot of the hill, allowance should have been made for meeting stones and rocks

It is the opinion of the Board that no more Municipal Money should be given towards the scheme and that the amount of this

this unexpected estimate should be met by contribution from each house in Bivojinchi according to the means of the owner as the money already subscribed has not been collected from the general public of that quarter-ed from the general public of that quarters but only from a few Brahmins living there.

The Amildar's report is that Rs 100 only has as yet been expended in the earthwork of the channel.

The new organization of the police having been introduced in this taluk & the number of police constables for the whole taluk being only 20, being the same number as is provided for other talooks whose head quarters are very small towns indeed as compared with Chitaldroog, the Board is of opinion that a separate police is necessary for employment in Chitaldroog alone as the 20 Constables above referred to are liable to be employed at any moment anywhere in the taluk.

The number of houses in Chitaldroog is estimated at 1500 and the population as taken at the census in November 1871 is

The town of Chitaldroog is also built

in a very straggling way and covers a deal of ground.

It is resolved, therefore, that application be made to the Commissioner of the Division to obtain the Chief Commissioners sanction to the Mohatwfa collections being made over to the Municipality in order that this may provide a suitable police for the protection of the town.

The concurrence of the Chief Commissioner is solicited as a separate police for the town appears an unnecessary extravagance as the Mohatwfa collection might be entrusted to the Municipality & a separate Subscription of the same amount be ascertained in this way. Hull

It is believed that a similar concession has been made to the Municipalities of the towns of Mysore Hassan & Shimoga.

Read petition from Peramah complaining of the collection from her, of Municipal house tax & Mohatwfa, stating she is unable to pay being a poor woman. She is not a widow, it appears as her husband is alive and carries on trade.

There seems therefore no reason for her complaint at the taxes being levied from her.
